

Qustodio launches Parental Control iOS app for iPhone and iPad

BARCELONA, SPAIN, June 27th, 2013 – Qustodio, a leading parental control software company, today released its iOS app "Qustodio Safe Browser" for iPhone, iPad and iPod touch. The app is now available in the Apple iTunes Store. Qustodio now supports most key platforms including iOS, Kindle, Android, Windows, and Mac OS devices. It is available in five languages: English, Spanish, French, Italian and Portuguese.

Qustodio informs parents how their children use connected devices and allows them to manage, monitor and protect children's online activities. Qustodio's web based dashboard gives parents key details of their child's activity and the ability to respond to issues immediately.

Here are some of the key features of the Qustodio Safe Browser for iOS:

- Monitor when your child is surfing the web
- Monitor the websites he/she accesses
- Monitor web searches
- Block specific websites or categories of websites
- Set time limits for web browsing on the internet
- Bookmark your child's favorite websites
- Online remote management

Pricing and Availability:

Qustodio has a free version and is available now from the iTunes App Store by following this [link](#).

Also available for users interested in protecting multiple devices is Qustodio Premium. Qustodio Premium is an optional upgrade from Qustodio Free. It's priced at \$49.95 per and features extended activity reporting, advanced Facebook monitoring, protection of up to 10 devices and 10 children, game and application blocking, and time scheduling by device. Available now [here](#).
