

FOR IMMEDIATE RELEASE

Qustodio enters business content filtering and remote device management market with plans to disrupt.

BARCELONA, SPAIN, July 24, 2014 -- For businesses and organizations looking for easy-to-use tools to monitor and manage employees' device and internet use, Qustodio Professional has arrived with big plans to disrupt a market dominated by enterprise players who charge hefty premiums for single feature solutions such as device management or content filtering.

Qustodio Professional is a full featured solution offering all size organizations the ability to keep track of employees' devices, filter content for a clean and safe web experience, and boost company productivity by limiting or eliminating time wasting activities. The product is multi-device and works across the most popular platforms of desktops, laptops, mobile phones and tablets.

Qustodio Professional is disruptive to the existing market as it offers a highly unique combination of remote management, monitoring and content filtering tools all-in-one.

Key ways Qustodio Professional helps businesses manage safety and productivity:

- Manage any desktop or mobile device in the organization from an intuitive online dashboard.
- Fits all size organizations: from a few employees to large global organizations
- Works on Mac, Windows, Android, iOS, Kindle and Nook devices
- Helps the organization understand how time is spent online, how it uses apps and devices, and where to spot productivity and safety issues.
- Creates a safe web environment with corporate compliant web content filtering
- Ensures that only relevant applications and apps are allowed within the corporate environment
- Keeps track of employees' mobile device locations
- Reports and alerts on user activities to anticipate problems

Pricing and Availability:

Qustodio Professional starts with a 30-day free trial (no credit card required). After that it's priced starting at \$1.99 device/month. Special discounts apply for educational organizations and larger volume plans. The product is available now from the Qustodio website:
